RE: Millcreek (Grand) Distribution System  
Account Number: 1-B

Dear Mrs. Walker:

This office has not received payment of your Millcreek (Grand) Distribution System water assessment. Our records indicate that you are now delinquent in the amount of \$327.35 (1983-1984), as of January 23, 1985. Section 73-5-1, Utah Code Annotated, 1953, governs the appointment of the water commissioners and the payment of the salary and expenses of the commissioners incurred in distributing the waters of a river system. This section further provides that these distribution costs shall be paid on a pro rata basis by all of the water users and

...such pro rata share shall be paid by each water user to the State Engineer, in advance, on or before the first day of May each year, and upon failure to do so, the State Engineer may create a lien upon the water right affected by filing a notice of lien in the office of the county recorder in the county where the water is diverted, may forbid the use of water by any such delinquent, his successors, or assigns, while such default continues, may bring an action in the district court for such unpaid expenses and salary, and may foreclose such lien, or the district court having jurisdiction of his person may issue an order to show cause upon any delinquent user why a judgment for such sum should not be entered.

If this account is not paid in full within this 30 days, the delinquency will be turned over to the Utah Attorney General's Office for collection.

If you have any questions concerning your assessment or the procedure outlined above, please contact Mr. Richard B. Hall, Telephone 533-6071, or by correspondence to Division of Water Rights, 1636 West North Temple, Room 205, Salt Lake City, Utah 84116

Yours truly,

Robert L. Morgan, P.E.  
State Engineer
